

Olivia Sontag

Graphic Designer

About

I'm a third year Graphic Design student at New England Institute of Technology. I am originally from Carver, Mass. Currently, I live in Rhode Island while I attend school. Graphic Design, especially drawing, has always been a hobby for me. I have learned so much about the different design areas. I have also learned how to use different softwares to create my designs. Some of the softwares are Adobe Photoshop, Indesign and Illustrator.
